Dear Board members

Would you be kind enough to consider my application for the role of Secretary for the International Marcé Society for Perinatal Mental Health (October 2020 - 2024). I have eighteen years of professional experience as a midwife, providing prenatal and postpartum mental health support for mothers, partners, their babies and families. I am dedicated to support interdisciplinary research on perinatal mental health and I have almost ten years of experience as a researcher. In the last seven years I have served as Secretary, and more recently as President, of the Australasian chapter of the Marce.

I would be delighted to provide editorial assistance with the international newsletter, assist coordination with regional groups, contribute to vital organizational development, participate in Executive Board teleconferences and work closely with the President, the Administrative Manager and Executive Board members.

Thank you for your consideration

A handwritten signature in black ink, appearing to read 'Deborah J Sims'. The signature is stylized with a large, sweeping loop at the end.
